

Idaho Society of Professional Engineers Update - October, 2017

# FROM THE PRESIDENT:

In 2016, Lieutenant Governor Brad Little signed <u>EXECUTIVE ORDER NO. 2017-06</u> which requires state agencies to submit a report to the Office of the Governor that assesses whether the licensure requirements are necessary and in the public interest while providing recommendation for improvement, modification, or elimination. ISPE collaborated with ACEC, and ISPLS to prepare a letter supporting the current Idaho Board of Licensure for Professional Engineers and Professional Land Surveyors. This letter can be viewed on the <u>ISPE website</u>. Please feel free to provide any comments you have regarding this development to the Lt. Governor's office and/or to ISPE. Thanks!

#### **UPCOMING EVENTS:**

• October 10, 2017 - <u>ISPE Southwest Chapter October Meeting</u> - 12:00 Noon - Meet at the end of the parking lot accessed from the main entrance on Whitewater Park Blvd.

• October 12, 2017 - <u>ISPE Northern Chapter October Meeting</u> - 2:00 PM - Litehouse – Ella Plant Expansion Project Tour - 1109 N Ella Ave, Sandpoint, ID 83864
