Topic: That's a Wrap! Non-Invasive Structural Repairs and Retrofits Utilizing Carbon Fiber

Synopsis: Lighter-Thinner-Stronger: Carbon-Fiber Reinforced Polymers (CFRP) have evolved from a rare “space-age” technology to a common manufacturing material used in everyday objects like eyeglasses and car parts. A more recent branch of that evolution is the use of CFRP for repairs and retrofits of existing buildings and structures. CFRP can repair and enhance a variety of capacities in concrete, masonry, and even timber, all without invasive procedures or adding significant mass or dimension to the structure.

12:03:27 From Brett Cummings : Brett Cummings

12:03:34 From jshaw : Justin Shaw

12:03:36 From Kyle Ahlgren : Kyle Ahlgren

12:03:59 From Jesse Herndon : Jesse Herndon

12:04:47 From Brandon Junso : Brandon Junso

12:05:30 From Ryan Lewis : Ryan Lewis is here.

12:07:11 From Angie Comstock : Please type your name into the chat for attendance purposes and also feel free to throw out any questions!

12:10:32 From RBenedetti : Rocky Benedetti with Strata

12:10:40 From James S. De Smet : Jim De Smet was here!

12:13:52 From Angie Comstock to mhayes(Privately) : Hi there! Thanks for joining us. Can you please type your name into the chat so we make sure we have you on the attendance record? Thanks!

12:14:00 From Angie Comstock to ZLootens(Privately) : Hi there! Thanks for joining us. Can you please type your name into the chat so we make sure we have you on the attendance record? Thanks!

12:14:13 From Angie Comstock to GE Siegford(Privately) : Hi there! Thanks for joining us. Can you please type your name into the chat so we make sure we have you on the attendance record? Thanks!

12:15:29 From mhayes to Angie Comstock(Privately) : Mark Hayes

12:18:48 From Angie Comstock to Ryan Lewis(Privately) : you should ask a question...

12:35:01 From Angie Comstock to GE Siegford(Privately) : Hi GE! Thanks for joining us. Can you please type your name into the chat so we make sure we have you on the attendance record? Thanks!

12:35:15 From Angie Comstock to ZLootens(Privately) : Hi there! Thanks for joining us. Can you please type your name into the chat so we make sure we have you on the attendance record? Th

12:41:16 From Brett Cummings : For applications where it protects from water and erosion, what is the recommended wait time after installation before it's put to use and introduced to water?

12:46:41 From ZLootens to Angie Comstock(Privately) : Zach Lootens - STRATA
